## SUN Chandelier RING Led Light Copper 100

The SUN Chandelier RING Led Light Copper 100 is a striking, modern geometric lighting fixture that features a ten-angled ring with a genuine copper finish. Its radiant halo of light enhances both residential and commercial interiors, from private homes to hotel lobbies and reception areas. Crafted from stainless steel with hand-applied copper leaf inside and a matte black powder-coated exterior, the chandelier is completed with a white opal polycarbonate diffuser for smooth, elegant light distribution. Integrated dimmable LEDs provide powerful illumination with no need for bulb replacement, and the fixture comes with a remote control for easy operation. The Sun Chandelier Ring family is available in several sizes and finishes, making it suitable for single installations or larger intersecting compositions in spacious interiors.

Type: LED chandelier, Ring Light, Downlight
