## Hexa Pendant Lights

A series of Hexa pendants available in five different shapes. Hs1, Hs2, Hs3, Hs4, Hs5.

The lamps are meant to be hung from the ceiling, for indoor use mainly. Each form is designed and cut digitally, assembled afterwards. Each lamp is assembled in a unique way.

The shapes are made of thin 0,3 translucent plastic, thus their weight is very little, around 0,5-1 kg. Despite the softness of the material, the structure, which is a hexagonal system, creates a firm, even form. At the intersections of the hexagons the elements display star-like shapes, which combine together and overlap, thus a very interesting surface structure is achieved.
